

NON ALCOHOLIC DRINKS PORTFOLIO

We take great pride in presenting our carefully curated portfolio of non alcoholic drinks.

We have personally selected, sampled and enjoyed every single bottle in our portfolio.

If it's there, it's because we loved it. And we hope you will too.

Following the establishment of our natural wine line, we are now offering non-alcoholic products like kombucha. Such products honour the terroir, respect the environment, and are vegan-friendly, continuing our commitment to authenticity.

Kombucha is a fermented beverage made from tea, created through a symbiotic relationship between yeast and bacteria. This process produces a lightly effervescent drink that is rich in organic acids, minerals, and natural antioxidants.

To place an order, simply email us or message us on our socials! Free delivery on orders over €50.

KOMBUCHA KARKADE

Kombucha Karkade is made from a blend of Indian Assam Satrupa black tea and black tea from Malawi. The Satrupa adds more body, while the Malawi tea tends to be more delicate compared to classic black teas.

Refermentation with hibiscus flowers, which not only add an intense color but also a tangy and refreshing note

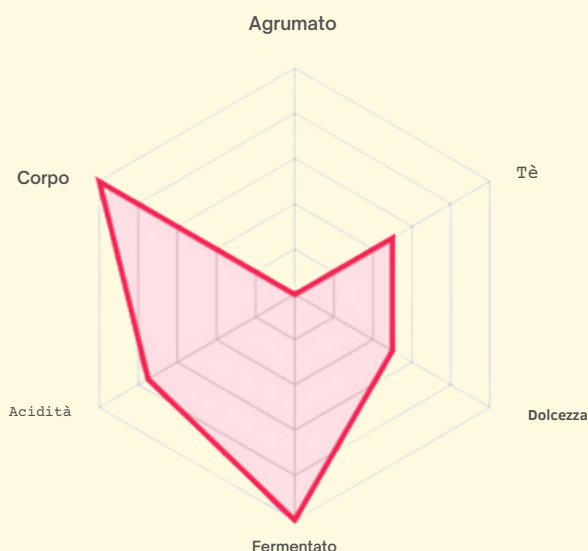

Nutritional information (100ml of product):

KOMBUCHA

LA PERLA

Kombucha La Perla is made from a delightful white tea from the Satemwa plantations in Malawi which undergoes no oxidation, resulting in a delicate flavour with a slight sweetness

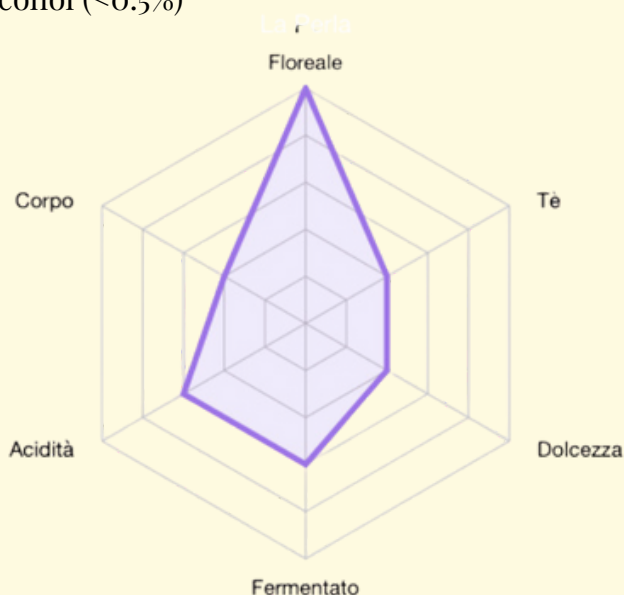

Refermentation with Sicilian lavender and butterfly pea flowers, which give the beverage a purplish hue and notes of the Mediterranean scrub.

Nutritional information (100ml of product):
